PROFESSIONAL SUMMARY

Flutter/Mobile App Developer building production mobile and web applications. Currently a Software Developer Intern at Quantum Works Private Limited, developing Maega, a full-featured Flutter service-marketplace app using Firebase Authentication, Cloud Firestore, and Provider state management. As a freelance developer, independently designed, built, and deployed a live React and Firebase website for a Hyderabad business, including custom Firestore security rules, App Check spam protection, a Vitest test suite, and a GitHub Actions CI/CD pipeline. Two years of professional experience across quality assurance and geospatial engineering, plus hands-on training in Microsoft Power Platform, bring a testing-first, documentation-led approach to every project. Seeking a full-time Flutter/Mobile Developer role.

TECHNICAL SKILLS

Mobile Dev	Flutter, Dart, Provider (state management), Material 3 UI, Google Fonts/custom theming, responsive UI design
Web Dev	React, JavaScript (ES6+), HTML, CSS, Vite
Programming Fundamentals	Object-Oriented Programming (OOP), REST API integration
Testing & CI/CD	Vitest, React Testing Library, GitHub Actions (lint/test/build/deploy pipelines)
Backend & Cloud	Firebase (Authentication, Cloud Firestore, App Check, Hosting, real-time data sync), Shared Preferences, REST API fundamentals, AWS (EC2, CloudWatch), Microsoft Azure (VM health monitoring, Recovery Services Vault)
Low-Code & Automation	Microsoft Power Apps (Canvas and Model-Driven Apps), Power Automate, SharePoint Integration, Dataverse, SQL Server
Tools & Practices	Git, GitHub, VS Code, MS Excel, Debugging and Testing, Incident Management, SLA/SOP Handling, Quality Assurance, Documentation, Risk Management, Communication and Team Collaboration

WORK EXPERIENCE

Freelance Web Developer

Aug 2026 – Present

Self-Employed — Client: SSD Yogashala and Kalakshetra, Hyderabad

Project: SSD Yogashala and Kalakshetra — Business Website (React, Firebase)

- Designed and built a production website from scratch for a real yoga, classical dance, and fitness studio using React (Vite), deployed live via Firebase Hosting.
- Added class booking and contact forms backed by Cloud Firestore, with automated email notifications via EmailJS and input validation for phone and email formats.
- Implemented an email-link-based review moderation workflow, letting the client approve and publish testimonials via a one-click link with no admin panel or backend server, using Firestore document-ID-based access control.
- Hardened the application with Firebase App Check (reCAPTCHA v3) and custom Firestore security rules, including field allowlisting and type/length validation, to block spam and unauthorized writes.

- Improved performance and search visibility by compressing a 2MB logo asset by 87%, adding lazy-loaded images, Open Graph and meta tags, sitemap.xml, and robots.txt.
- Managed the project end-to-end using Git and GitHub version control across iterative client feedback cycles.
- Set up a Vitest and React Testing Library suite covering booking-form validation and class-schedule rendering, plus a GitHub Actions CI/CD pipeline that runs lint, tests, and build checks on every push and auto-deploys to Firebase Hosting.

Technologies: React, JavaScript (ES6+), Vite, HTML/CSS, Firebase (Firestore, Authentication, Hosting, App Check), EmailJS, Vitest, React Testing Library, GitHub Actions, Git/GitHub

Software Developer Intern

May 2026 – Present

Quantum Works Private Limited, Hyderabad

Project: Maega — Service Provider Mobile App (Flutter, Dart, Firebase)

- Developing a Flutter mobile app for on-demand service technicians (e.g., cleaning, AC repair), covering authentication, job/booking management, earnings tracking, and profile settings.
- Integrating Firebase Authentication and Cloud Firestore for real-time syncing of user profiles, saved addresses, and payment methods, with stream subscriptions managed across the sign-in/sign-out lifecycle.
- Implementing reactive state management with the Provider package, including app-wide light/dark theming persisted via Shared Preferences.
- Building a job-tracking workflow with status tabs (Assigned / In Progress / History), booking search, and an earnings dashboard with daily/weekly/monthly stats and withdrawal history.
- Debugging and testing application code, documenting features, and collaborating with senior leaders to research and resolve technical issues.

GIS Engineer (Quality)

Jul 2024 – Oct 2025

RMSI Pvt Ltd, Hyderabad

- Performed quality checks on geospatial data and ensured accurate documentation.
- Identified design risks and implemented mitigation strategies.
- Collaborated with cross-functional teams to improve design and planning processes.

Technical Support Engineer Intern

Sep 2023 – Jan 2024

Cloud4C Services, Hyderabad

Project: DTS and Hyperscaler Customers

- Monitored AWS CloudWatch alerts and Azure VM health status; handled snapshot monitoring in the SAP Infra portal.
- Managed incident tickets and service requests, routing them to L0/L1/L2 teams based on severity and priority.
- Ensured adherence to SLA and SOP standards; provided initial response (IR) and client communication support.

CERTIFICATIONS & TRAINING PROJECTS

PowerApps Course

Oct 2025 – Mar 2026

Anwentec Innovations Pvt Ltd

- Completed hands-on training in Power Apps (Canvas and Model-Driven Apps), Power Automate, SharePoint integration, and Dataverse.
- **Field Asset Management System** — Developed a Canvas App to manage field assets and engineer task assignments; used SharePoint as the backend, automated approval workflows via Power Automate, and implemented role-based access with a real-time status tracking dashboard.

- **Employee Leave Management System** — Built a Canvas App with full CRUD operations for leave requests; used SharePoint as the backend, implemented approval workflows via Power Automate, and designed role-based access and validation logic.

EDUCATION

B.Tech, Mechanical Engineering — *St. Martin's Engineering College* (2018–2022) CGPA 6.17

Intermediate (MPC) — *Sri Chaitanya Junior College* (2016–2018) CGPA 8.3

SSC — *VHS School* (2015–2016) CGPA 8.7

ACHIEVEMENTS

1st Place — MECHARENA Hybrid Two-Wheeler, Osmania University 2022

1st Place — MECHARENA Elliptical Cycle, Osmania University 2020

Member — Society of Automotive Engineers (SAE); technical paper presentations and events
